

## Summary for children and young people

Name of children's home: Muswell Hill Children's Home

URN: SC039213

Date of inspection: 17 August and 18 August 2001

Hi all,

It was fun to meet you this week. I really enjoyed hearing about some of your achievements in education and your plans. I hope my suggestion about an advocate was helpful as well, it can only be good to have some people making sure everything goes well.

I think your home is a nice place to live and it is great that you are all in school.

Inspections are helped when the most important people, like yourselves can say what they feel about their home. Many thanks for this. Abu has a copy of the report in the office if you wanted to read through it, this letter aims to give you a little summary of what was found.

The inspection found that your home is 'good.' Abu has a few things to do which I hope will make you safer and ensure you get the support you need. I hope this makes your home even better for you.

All the best.

Barnaby
